

ULTRA-LOW SLEEP SYSTEM

AMERILUX™

Introducing AmeriLux™ — Where Safety Meets Style

We're excited to unveil AmeriLux™, the latest innovation in our extended care bed line—designed to elevate resident safety while blending seamlessly into residential-style settings.

With its ultra-low profile and sleek black frame, AmeriLux™ redefines the look of traditional beds—offering a more modern, design-friendly aesthetic without compromising on safety.

Built with advanced Ultra-Low technology, AmeriLux™ significantly reduces the risk of fall-related injuries by lowering close to the ground—providing peace of mind for both caregivers and families.

For residents at higher risk, an optional fall mat transforms potential falls into gentle rolls, offering an added layer of protection without feeling clinical.

With AmeriLux™, you don't have to choose between elegance and safety—you get both.

AMERILUX SERIES

FEATURES AND ADVANTAGES:

Made in the USA

- Minimal lead times
- Quality craftsmanship and manufacturing

Ultra-Low Technology

- Adjustable height from floor level at 4 inches to nursing height at 30 inches
- Bed electronics feature full floor clearance, preventing floor contact vs similar models offered by competitors
- Available as 36 inch width or 42 inch width bed
- Sleek, black frame

Customizable Design Options

- Creative flexibility to align seamlessly with your design aesthetic
- Personalization by adding wooden side boards for a cozy, home-inspired feel
- Offered in 7 standard board styles & 13 finishes, with the possibility of custom styles or finishes upon request

SilverSolutions™

- Located in the powder-coating which provides antimicrobial surface protection
- Deters the growth of odor-causing bacteria

Sealed Ball Bearings

- Allows seamless, continuous, and noiseless movement
- Maintenance Free

Optional 'Plug and Play' digital electronics enable future feature additions
